The Electric Button

Stepping through countless generations, the mythical force which performs magical wonders for the hero of the Arabian Knights is found in the wall switch of every modern home, industrial establishment and business enterprise.

This power today moves mountains with the ease that it whips an egg. There is hardly a task left that cannot be fulfilled completely, more quickly and at a less cost by the use of electric power.

From the energy controlled by the switch on your wall you can light your home, cook your meals, refrigerate your food, sweep your rugs, wash and iron your clothes, pump your water and put a permanent wave in your hair.

And this power, coming to you over copper wires, reflects the untiring energy that is maintained that you may have service.

Defects In Titles Are Numerous

It is doubtful if there is such a thing as a perfect title. Some defects can be seen; others cannot. Some may be clearly visible, and yet be overlooked. Some are important and vital; others are minor and probably will never result in loss or inconvenience to the holder of the property.

WHEN WE EXAMINE A TITLE AND ISSUE OUR TITLE POLICY GUARANTEEING SAME, YOU ARE PROTECTED, AND THE PRICE YOU PAY FOR THAT PROTECTION IS SMALL.

Speaker of U. S. House.

North Carolina has furnished only one Speaker of the United States House of Representatives. Nathaniel Macon was three times chosen Speaker, and presided over the Seventh, Eighth and Ninth Congresses.

The State of North Carolina was the first to establish a hospital for the insane. It now has three such institutions in addition to a school for the feeble-minded. It leads the South in caring for its unfortunates.

North Carolina Birth and Death Rates—1927

For the ninth consecutive year, North Carolina leads the United States with the highest birth rate, this being 28.7 per thousand population. The rate for the entire Birth Registration Area (which is 87.3 per cent of the population of the United States) was 20.4, or more than eight per thousand less than North Carolina.

The State birth rate for whites was 28.0 per thousand population and the colored was 29.8 per thousand. No comparative figures can be given for the State birth rate, white and colored with the birth rate for the Registration Area, white and colored, since these figures have not been issued by the Bureau of the Census.

The death rate for North Carolina is 11.3 per thousand population as compared with 11.4 for the Death Registration Area of the United States, which includes 91.3 per cent of the population of the United States. The white death rate for North Carolina was 9.6 per thousand and the Negro rate 15.4 per thousand.

Rates for the Registration Area of the United States are taken from the provisional birth and mortality figures issued by the Bureau of Census, June, 1928.

Sir Walter Raleigh's First Colony

$450.00 Per Acre Net In the Worst Season Tobacco Has Known in Years

In spite of unfavorable markets, many tobacco growers made profits last year by using heavy applications of V-C Fertilizers. It enabled them to grow big crops of fine leaf.

At Whiteville, N. C., for example, Mr. W. H. Powell used 1000 lbs. of V-C Fertilizer 8-3-3. The plants made a tremendous growth—keeping a light yellow tint throughout the season and cured out 1500 lbs. to the acre. He averaged 30c per lb., or $450 per acre.

Every 200-lb. bag of High-Grade V-C Fertilizer used per acre on tobacco will produce, under good cultural directions, an increase of 100 lbs. of prime quality leaf.

You can get the grades of V-C Fertilizer that are made especially for tobacco. The ingredients are selected and analyzed to meet the exacting needs of the growing crop. Further, our agronomists check the results in the field.

Fine mechanical condition that insures easy drilling . . . new extra-stout bags of our own make . . these are a few features that make it worth while to ask your dealer for V-C Fertilizers.
